NICHOLAS BENNETT

Customer Success Manager

Baltimore, MD | 224-432-4264 | nicholas@nicholasbennett.work | LinkedIn | nicholasbennett.work

SUMMARY

Customer-focused technical professional with 16 years in technical support and experience building software for managed cybersecurity services. At CyberMaxx, partnered closely with Customer Success to gather client feedback, accelerate issue escalation, and deliver customer-facing fixes and features. Familiar with security operations workflows, MITRE ATT&CK, and SIEM platforms including Elastic, Devo, and AlienVault USM. Skilled at explaining technical problems clearly, supporting users, and collaborating across teams to improve outcomes.

CORE SKILLS

Customer Success collaboration • Client feedback and issue escalation • Technical/product support • Managed security services • Security operations workflows • MITRE ATT&CK • Elastic / Devo / AlienVault USM • Customer-facing reporting • Technical communication • Stakeholder UAT • Troubleshooting • Jira / Confluence / SQL

PROFESSIONAL EXPERIENCE

Software Engineer | CyberMaxx | Baltimore, MD | May 2025 – Nov 2026

- Partnered with the Customer Success team to gather client feedback, accelerate issue escalations, and translate reported problems into bug fixes and product enhancements.
- Delivered features for CyberSight, a managed security customer portal serving a client base of approximately 400 companies, and Aegis, an internal security operations platform.
- Built SIEM rule-management interfaces for Elastic, AlienVault USM, and Devo, supporting repeatable security operations workflows.
- Investigated customer-impacting reporting and production defects across frontend and backend systems; collaborated on resolution and weekly releases.
- Built interactive security dashboards and downloadable historical reports to make technical security data easier for customers to review and use.
- Developed an interactive MITRE ATT&CK matrix enabling customers to explore security cases by adversary technique and sub-technique.

Senior Optimization Consultant | Strata Decision Technology | Chicago, IL | Apr 2023 – Jul 2023

- Investigated customer issues in healthcare software using SQL, Excel, data integration, and configuration to support client workflows and troubleshoot problems.

Product Support Engineer | Pear Therapeutics | Chicago, IL | Oct 2021 – Nov 2022

- Triaged technical issues and UI defects in a cloud-based therapy platform; created reproducible JavaScript cases to help engineering investigate fixes.
- Created Jira dashboards exposing more than 4,000 issues, improving visibility and supporting engineering prioritization.

Full Stack Developer | Kellogg School of Management | Evanston, IL | Jan 2020 – Oct 2021

- Built applications serving 1,200 MBA students, translating stakeholder needs into practical workflows and usable software.

Senior Technical Support Specialist and Faculty Computing Support Lead | Kellogg School of Management | Evanston, IL | Jul 2015 – Jan 2020

- Supported 300 faculty across six campuses; explained technical issues, resolved urgent problems, and built trusted relationships with users.
- Built a search portal and student internship matching tool in response to needs beyond individual support requests.

Earlier Technical Experience Technical support roles at Northwestern University, Kellogg, and BarcodesInc, 1999–2013. Development and research roles at Northwestern SONIC Lab, WiredTree Hosting, Hoy Chicago, and the Institute for Nonprofit News, 2011–2015.

PROJECTS AND COMMUNITY LEADERSHIP

MITRE ATT&CK Flashcards | Independent Project

Built a mobile-friendly, offline-first study app covering 706 MITRE ATT&CK techniques and sub-techniques. Designed flashcards around synthetic Windows/Sysmon events, with technique explanations, false-positive context, spaced repetition, and tactic-level progress tracking. https://nrrb.github.io/mitre-flash-cards/

Tiny Goose Club | Organizer and Host

Organize and host a biweekly public creative meetup in Baltimore, facilitating a welcoming experience for participants. https://tinygoose.club/

EDUCATION

Northwestern University Coursework in Mathematics and Computer Science, 1999–2003. Degree not completed.
